PREVIOUS EXPERIENCE & EDUCATION

- 2 years operational in early-stage environments (4–6 person teams): data analysis, business modeling, pricing, procedures; structured workflows across 4 standardised tracking lines.

HOW I WORK

Organised, execution-oriented, comfortable in ambiguity. I take messy situations, break them down, turn them into a clear roadmap. I work best where structure still has to be built.

WHAT I'M LOOKING FOR

Where I can work alongside the CEO and grow cross-functionally. Deliberately aiming for a junior role: I'd rather *over-deliver* from the bottom than negotiate an inflated title. Starting from the bottom, with maximum ambition, always aiming higher.
